

Report on the First Online World Memory Championships 2020

The First Online World Memory Championships - Global Finals has ended on 20th December 2020. 16 countries and regions have participated in the competition via sub-venues, competed over 10 disciplines in 3-days competition.

Due to ongoing coronavirus outbreak, we are unable to gather competitors around the world and compete in the same country this year, but with the efforts of WMSC, APMSC and the global chief arbiter Lester He, the World Memory Championships has adopted online and synchronous mode, had the competitors compete synchronously in 16 countries and regions.

Screenshots of some sub-venues

We had 16 countries and regions, more than 300 competitors participated in championships. They are from China, Canada, the United Kingdom, South Korea, Vietnam, India, Malaysia, Algeria, Pakistan, the United States, Hong Kong(China), Macau(China), Taiwan(China), Libya, Qatar and Iraq. The best and the brightest candidates competed to demonstrate their intellectual power and to test the limits of memory.

There were more than 200 competitors from China. With the oldest of 72 years old and the youngest of 8 years old. There were not only teachers and students like Zhang Xingrong and

Zhou Shidong, but also mother and son like Hu Wenjing and Zhang Pinyuan that trained and competed together, and fight for the honor of International Memory Master.
